

VOTE WITH YOUR FEET

What's happening to democracy in New Zealand? Why has every government in the past 10 years spent millions of dollars on referendums and then totally ignored the results? Isn't democracy about debate? Doesn't debate lead to good decisions?

In the election 45% of votes counted for National. In the recent referendum 87% of votes counted for nothing. Don't let that happen again. Join us and march for a better, more democratic New Zealand.
